

15 Titles: Teen Maths and computing

To coincide with Maths Week during 11-17 November, this month we have collated a list of fiction and non-fiction titles around maths and computing.

The introduction of a range of maths and computing language at the appropriate level, using fiction and biography as well as information books, can help develop subject specific vocabulary and skills.

Subscribers can contact their adviser for help with weeding and audits or for advice and recommendations.

- The books on this list can be purchased from the School Library Service
- Individual titles can be purchased at a saving of 25% off RRP
- Please contact us at schoollibraryservice@devon.gov.uk or 01392 287244
